General

May I include output from WRPLOT View in my paper or report?

Authors can use screen captures and output from WRPLOT View when preparing papers or reports of their work. Lakes Environmental requests that the author cite WRPLOT View when publishing as below:

Lakes Environmental, <copyright year>, WRPLOT View - Air Dispersion Model, Waterloo, Canada - url: http://www.weblakes.com

An WRPLOT VIew reference entry in BibTeX for LaTeX is shown below:

```
  @Manual{,
    title = {WRPLOT View – Air Dispersion Modelling},
    author = {{Lakes Environmental Software}},
    organization = {Lakes Environmental Software},
    address = {Waterloo, Ontario},
    year = {2014},
    url = {http://www.WebLakes.com/},
  }
```
