# AERSCREEN View™ Version 4.0

## Release Notes

October 25, 2022

### New Features

Topic	Feature Description																				
<p><b>Models</b></p>	<p><b>Latest Release of U.S. EPA AERMOD Model (22112)</b></p> <p>The U.S. EPA AERMOD model version 22112 (released June 27, 2022) is now available for selection under the <b>Preferences</b> dialog. This version is also set as the default AERMOD executable (AERMOD.EXE).</p>  <table border="1" data-bbox="711 1024 1382 1373"> <thead> <tr> <th>Model Executable</th> <th>Release Date (YYYY/MM/DD)</th> </tr> </thead> <tbody> <tr> <td>AERMOD.EXE</td> <td>2022/04/22</td> </tr> <tr> <td>AERMOD_22112.EXE</td> <td>2022/04/22</td> </tr> <tr> <td>AERMOD_21112.EXE</td> <td>2021/04/22</td> </tr> <tr> <td>AERMOD_19191.EXE</td> <td>2019/07/10</td> </tr> <tr> <td>AERMOD_18081.EXE</td> <td>2018/03/22</td> </tr> <tr> <td>AERMOD_16216R.EXE</td> <td>2016/08/03</td> </tr> <tr> <td>AERMOD_14134.EXE</td> <td>2014/05/14</td> </tr> <tr> <td>AERMOD_13350.EXE</td> <td>2013/12/16</td> </tr> <tr> <td>AERMOD_12345.EXE</td> <td>2012/12/10</td> </tr> </tbody> </table>	Model Executable	Release Date (YYYY/MM/DD)	AERMOD.EXE	2022/04/22	AERMOD_22112.EXE	2022/04/22	AERMOD_21112.EXE	2021/04/22	AERMOD_19191.EXE	2019/07/10	AERMOD_18081.EXE	2018/03/22	AERMOD_16216R.EXE	2016/08/03	AERMOD_14134.EXE	2014/05/14	AERMOD_13350.EXE	2013/12/16	AERMOD_12345.EXE	2012/12/10

AERMOD_12345.EXE	2012/12/10																				

Topic	Feature Description
<b>Scenario Wizard</b>	<p><b>Terrain Clarification for Area Sources</b></p> <p>When creating new or editing existing scenarios for area sources, the <b>Terrain and Distances</b> step has been updated to disable the “Include Terrain Effects” option from consideration. This helps clarify AERSCREEN’s order of operations which models area sources using a flat terrain algorithm.</p> <p>Area source base elevations can still be input via the <b>Source Inputs</b> dialog or interpolated from digital terrain via the <b>Terrain Processor</b> utility.</p> 

## Fixed Issues

Topic	Feature Description
<b>Models</b>	<p><b>AERMOD 19191 x64 Added</b></p> <p>The 64-bit version of the AERMOD 19191 model executable was missing from the previous release. This has been corrected.</p>
<b>Buildings</b>	<p><b>Manually Editing Vertices</b></p> <p>A bug was corrected which prevented the table of vertices from working when vertices were manually added to the list.</p>
